Meeting Notes

1) **Follow up**
   - Skip logic within section GG
     - One of the codeable concepts would be used to accommodate the skip logic
   - Use of the questionnaire response
     - Not recommended for use in a clinical context

2) **Component Value** (Chris Pugliese, Brightree)   20 minutes
   - Defining fields within the FHIR resource
   - Refer to "Functional Status Mapping.xls"
   - Group discussed "field names", if "required", and the "Value Definition"
     - Field name "status"
       1. The discharge summary can come from multiple providers
       2. If a provider has not completed the note, or it has been completed but not yet signed, it should not be exchanged.
          - The group agreed that information should only be published if it is "final"
       3. This will be a modifiable element
     - The agreed upon Value Definition was updated in the spreadsheet.
     - Field name "category"
       1. Need both "therapy" and "exam"
     - Field name "hasMember/ Derived"
     - Concern raised regarding multiple disciplines completing the GG assessment and whether each addition would lead to an

amendment.
- • HasMember Field
  - 1. ADLS would be captured as one component and mobility would be captured as another.
- – This agenda item will be continued on the next call
