Meeting Notes

1) **CMS Seeking Public Input** (Beth Connor, CMS) 5 minutes
   - [RFI on Reducing Administrative Burden to Put Patients over Paperwork](#)
   - [Patients over Paperwork](#) webpage

   Beth Connor unable to attend meeting and therefore this agenda item was not discussed

2) **FHIR DevDays Debrief** (MITRE Team) 15 minutes

   - There have been multiple keynotes at DevDays that have been highly engaging. There were multiple available tracks for attendees, including a student track
   - DaVinci is developing four implementation guides for ballot in July and another four in September
   - The event presented networking opportunities with policymakers, engineers, students interested in FHIR, clinicians (among others)

3) **Functional Status Data Model** (Dave Hill, MITRE) 30 minutes

- MITRE presented a slide deck that contained examples of functional status "entries" available in the current observation resource.
- The WG will need to decide which data elements/entries are needed to adequately and completely communicate functional status from one setting to another
    - The WG discussed whether these elements will be "view only" or "discrete". They may also be both.
    - When talking about transitions, the WG should take different lookback periods into consideration, although the goal is to have information flowing in real time and have access immediately
    - One participant suggested provider type (who performed the assessment) should be included.
    - Weight-bearing status and endurance are important data elements not in the DEL, but important to know
    - The WG should explore FASI elements that have more detailed information that can be included, in addition to DEL elements. This information can be added to the PACIO Project GitHub
    - The WG should not be restricted to DEL elements only

4) Open Discussion (All)   10 minutes

- None

5) Next Meeting:
  - Monthly Meeting Wednesday, June 19, 10:00am – 11:00am
  - Wednesday, June 19, 2:00pm – 3:00pm

6) Upcoming Convening Opportunities:
  - June 23-25: [Collaborative Care & Health IT Innovations Summit](#) (Baltimore, MD)
  - July 9-10: [OSEHRA Open Source Summit](#) (Bethesda, MD)
  - August 21-22: [ONC Interoperability Forum](#)
  - September 14-20: [HL7 33rd Annual Plenary & Working Group Meeting](#)

7) Homework (Dave Hill, MITRE)
  - Reminder: Sign up for the [DEL listserv](#)
  - Think about which data elements need to be exchanged for discussion next week

8) Adjourn
